## PROFESSIONAL SUMMARY

B.Tech CSE (AI/ML) student building data and ML projects with Python, Java, C/C++, SQL, and IoT; shipped a customer segmentation system, employee attrition predictor, and library management application.

## EDUCATION

**United College of Engineering and Research** 2024 – Present
*Bachelor of Technology in Computer Science(AI&ML) — CGPA 8.5+*

## TECHNICAL SKILLS

**Languages:** C, Java, Python
**DSA:** Arrays, Strings, Sorting, Recursion, Linked List
**Tools:** VS Code, Git
**Libraries:** Numpy, Pandas, Matplotlib, Scikit Learn

## EXPERIENCE

**Summer Training - Artificial Intelligence and Machine Learning | Innovation and Incubation hub, MNNIT Allahabad** June 2026 – july 2026

- Built an employee attrition prediction system by cleaning and preparing HR data, analyzing workforce trends, and training Logistic Regression, Random Forest, and XGBoost models to identify employees at risk of attrition and support data-driven retention decisions.

**Summer Training - Python for Data Science | United College Of Engineering and Research** July 2025 – August 2025

- Built a Library Management System using Python and Tkinter
- Built an Online Retail Customer Segmentation using Python, Pandas, Matplotlib, and Scikit-Learn.

## PROJECTS

**Online Retail Customer Segmentation**

**KrishiRakshhakAI**

**Library Management System**
